

Mohamed Hassan Fayk

Flutter Developer | Mobile Application Developer

Cairo, Egypt • +20 109 709 9181 • mohamed.hassan.software1@gmail.com • [linkedin.com/in/muhamedhassan1](https://www.linkedin.com/in/muhamedhassan1) • github.com/mohamdassan1

PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of building cross-platform mobile applications for Android and iOS. Skilled in Clean Architecture, BLoC, REST API integration, Firebase, Supabase, and AI-powered features. Since graduating in July 2025, working as a freelance Flutter developer, independently delivering production-quality apps integrated with real backends. Strong foundation in OOP, SOLID principles, and Git-based collaboration.

EXPERIENCE

Freelance Flutter Developer

Aug 2025 – Present | Cairo, Egypt

- Designing, developing, and delivering Flutter apps for Android & iOS across healthcare, entertainment, and travel.
- Integrating real REST APIs, Firebase, Supabase, SQLite, GoRouter, FCM, and localization across projects.
- Applying Clean Architecture and BLoC for scalable, testable codebases from UI to data layer.

Flutter Developer – Project-Based & Academic Experience

2022 – Jul 2025 | Cairo, Egypt

- Built 3+ Flutter apps during academic years covering health tech and e-learning.
- Led mobile front-end in a 5-person cross-functional team (frontend, backend, AI) with Agile delivery and code reviews.
- Maintained Git repos with structured branching and pull-request conventions.

PROJECTS

VCare – Doctor Appointment App (Personal Project)

Jul 2025 – Sep 2026 | Flutter · Dart · REST API · BLoC · Clean Architecture · Dio

- Full-stack health app wired to a real Laravel REST backend — zero mock data, every feature is API-backed.
- Built complete auth flow with JWT, flutter_secure_storage, login/register/logout, and secure session management.
- Features: doctor search, specialization listing, appointment booking & history, user profile editing with photo upload.
- Integrated Gemini AI assistant via Dio for intelligent in-app support.
- Light/dark theme system with persistent ThemeController; localization infrastructure for Arabic & English.

FoodLens – AI Nutrition & Health Tracker (Personal Project)

Feb–Jul 2025 | Flutter · Dart · Firebase · REST API · YOLOv11 · SQLite

- Led mobile front-end across a 5-person team; Firebase Auth, Firestore, Cloud Storage.
- Calorie, water & sleep tracking with smart notifications; YOLOv11 AI model at ~90% accuracy.

Travel Booking App (Personal Project)

Mar–Jun 2026 | Flutter · REST API · Firebase · Supabase · GoRouter

- Multi-screen travel app: user auth, destination browsing, trip details, and booking flows.
- Supabase DB & Storage; Firebase FCM + local notifications; full Arabic/English localization with RTL.
- GoRouter for declarative navigation and deep linking across complex multi-screen routes.

Movie Discovery App (Personal Project)

Nov–Dec 2025 | Flutter · REST API (TMDB) · Firebase · SQLite

- TMDB REST API for real-time movie browsing, search, and detailed film views.
- Firebase cloud favourites with SQLite local offline caching; clean responsive Flutter UI.

EDUCATION

B.Sc. in Computer Science • Misr Higher Institute for Computer & Commerce – Mansoura, Egypt • Graduated: July 2025 • Grade: Very Good

TECHNICAL SKILLS

Mobile	Flutter, Dart, Android, iOS, Cross-Platform, Responsive UI	Localization	Arabic & English, RTL Layout, Flutter l10n
State Mgmt	BLoC, Cubit, Provider, Clean Architecture, Repository Pattern	Navigation	GoRouter, Declarative Navigation, Deep Linking
Backend & APIs	REST API, Dio, Firebase (Auth, Firestore, Storage, FCM), Supabase (DB & Storage), JSON, JWT	Architecture	Clean Architecture, OOP, SOLID Principles, Design Patterns, MVC, MVVM
Database	SQLite, SharedPreferences, flutter_secure_storage, CRUD, Local Persistence	AI / ML	Gemini API, YOLOv11, On-Device Inference, AI Model Integration
Auth & Security	User Authentication, JWT, Login/Register/Logout, Secure Session Management	Dev Tools	Git, GitHub, Android Studio, VS Code, Postman, Figma, Agile/Scrum
Notifications	Firebase Cloud Messaging (FCM), Local Notifications	Languages	Dart (Advanced), Python, Java, C#, C++

LANGUAGES

Arabic – Native • English – B2 Upper-Intermediate (Business English, MCIT/DECI certified)
